Our company's heritage dates back more than 60 years and, as a global manufacturer of high performance speciality building materials, ARDEX has remained at the forefront of the Flooring and Tiling industries.

Today, ARDEX remains an independent, family owned business, which means throughout our efforts to achieve market-shaping innovations, we have been able to retain our most important tradition: uncompromising quality.

The International Projects and Specification Services Program (IPSS) assists architects with international project specifications in any part of the world. The ARDEX IPSS team consists of representatives strategically located around the globe to provide specification assistance to architects, matching the correct ARDEX products and solutions required to ensure a successful installation regardless of location.

IPSS Benefits

- International product selection assistance
- International warranty program
- Installer recommendations and support
- Specification assistance
- Technical and jobsite support
- Local distribution information
- Environmental information

OPERA HOUSE SYDNEY, AUSTRALIA

Australia's busiest cultural precinct relies on ARDEX quality. 12,000 sqm of ARDEX waterproofing products offered proven safety in terms of enduring time and moisture.

Products used: ARDEX X 77, ARDEX E 90, ARDEX SE

Project size: 12,000m²

BURJ KHALIFA DUBAI, UEA

Up to 186 floors of the world's tallest building were leveled with ARDEX products – the largest volume of levelling and smoothing compound used on one project in the company's history.

Products used: ARDEX A 35, ARDEX N 23 W, ARDEX MG, ARDITEX NA

Project size: Approximately 100,000m²

CITY LIBRARY STUTTART, GERMANY

Considered an inspiration to science and culture. The architects vision of absolute homogeneity and clarity was realised with PanDOMO® offering the clean, virtually seamless surfaces required, whilst meeting the demands of high traffic areas.

Products used: PanDOMO® Wall, PanDOMO® TerrazzoMicro
Project size: 1,000m²

MADRID AIRPORT MADRID, SPAIN

Working on 100sqm per night, the entire floor of natural stone tiles had to be refurbished whilst the airport remained fully operational. The solution was a high strength ARDEX Ultra Rapid Drying Screed for Cement in combination with MICROTEC natural stone adhesive and ARDEX Rapid Drying Natural Stone Tile grout.

Products used: ARDEX A 35, ARDEX N 23 W, ARDEX MG
Project size: 12,000m²

AQUATICS CENTRE LONDON, ENGLAND

866,000 tiles were fixed in the London Aquatics Centre, which formed the gateway to the Olympic Park.

Products used: ARDEX S 21, ARDEX S 7, ARDEX X 77, ARDEX-FLEX FL, ARDEX WPC
Project size: 10,000m²

HOUSES OF PARLIAMENT OFICES LONDON, ENGLAND

As part of a major refurbishment of listed parliamentary estate buildings, only ARDEX products were trusted to restore and protect these iconic working buildings for years to come.

Products used: ARDITEX NA, ARDEX DPM 1C, ARDITEX A 45, ARDEX Feather Finish, ARDEX X 7, ARDEX FA 10
Project size: Ongoing

**U.S. BANCORP TOWER
PORTLAND, UNITED STATES**

After the original tile contractor walked away from the project due to a failing substrate, only ARDEX could specify a solution, supply the products and offer the professional training needed to exceed the demanding installation requirements.

Products used: ARDEX ARDIFIX, ARDEX K 60, ARDEX DS 70, ARDEX 8+9, ARDEX X 77, ARDEX FL, ARDEX WA, ARDEX SX

Project size: 15,000ft²

**STARBUCKS AT THE MIXC
SHANGHAI, CHINA**

The stunning appearance of the finishing surface produced by the PanDOMO® Wall System integrated with the ambient lighting effect perfectly, whilst complying with the owners quick installation and drying requirements.

Products used: PanDOMO® Wall System

Project size: 1,000m²

MCDONALDS UNITED KINGDOM

ARDEX have been appointed by the world's largest family restaurant chain, McDonalds, to supply a tile fixing solution for the re-fit of all of their UK restaurant locations.

Products used: ARDEX DGR, ARDEX ARDURAPID A 45, ARDEX X 77, ARDEX X 78 S, ARDEX-FLEX FL, ARDEX X 7001

Project size: Ongoing

THYSSENKRUPP ESSEN, GERMANY

The key to this unique spacial experience was choosing the right materials for the finish. PanDOMO® offered a monolithic system for a seamless, fully custom designed surface resulting in a harmonious, flowing space with a clear, reduced design – an absolutely stunning effect.

Products used: PanDOMO® Wall, PanDOMO® Floor
Project size: 135m²
